Introduction

The facilities management industry is exceptionally busy. There are deadlines that constantly need met. Budgets need tracked for multiple projects. Your employees are EVERYWHERE and need to be easily identified.

If you've ever tried to put your employees in a uniform, you know it can be challenging. There are countless options out there. But how do you know which styles are the best? How do you know that the uniform you're selecting for your employees provides the most value?

Working with numerous facilities management organizations over the years puts us in a great position. We've been able to identify what works and what doesn't. Through trial and error, we're able to compile the best uniform options for your uniform program.

And now, for the best uniform in your industry. Let's begin.

Work Shirts for Facilities Management

Red Kap SP14/24

Weighing at 3.75 oz, this shirt style is a great starter piece for a Facilities Management uniform program. The TouchTex™ technology provides superior color retention, soil release and wickability. It's an extremely durable shirt containing 65 Polyester/35 Cotton that's made to get the job done.

Starting at: \$13.00 Long sleeve / \$11.00 Short sleeve

Wrangler WS10/20

A slightly heavier 5.25 oz canvas material, this shirt will also hold its color extremely well. The double needle stitching provides superior durability and the 60 Cotton/40 Polyester blend provides unmatched comfort. The Wrangler name is synonymous with work and this shirt is a great fit for you Facilities Management program.

Starting at: \$28.00 Long sleeve / \$26.00 Short sleeve

Polo Shirts for Facilities Management

Cornerstone CS412

This polo is made for a working environment, but provides a casual experience. The double-needle stitching throughout makes it exceptionally durable. A snag resistant fabric provides exceptional durability for a variety of job applications. The tag free label and flat knit collar provide modern features typically found in office apparel. At 6.6 oz. and 100% Polyester, it's perfect for the Facilities Management uniform.

Starting at: \$23.00

Red Kap SK90

The Red Kap brand of work clothes is synonymous with quality craftsmanship, and this latest model is no different. The textured waffle pattern gives it a more modern look and the snag resistant properties will keep the shirt looking professional over multiple seasons. It provides superior color retention and wicking of moisture away from your body. While the shirt is made for work, the self-fabric convertible collar gives a more casual appearance. With a weight of 5.3 oz and 100% Polyester fabric, this polo will be a great fit in a variety of roles and will succeed in promoting your brand professionally.

Starting at: \$20.00

Cargo Pants for Facilities Management

Red Kap PT88

The ideal pant for starting a Facilities Management uniform program, the Touchtex® technology provides soil release and great color retention. The waistband, brass ratcheting zipper and button closure are as durable on this pant as any other. The 8 oz 65 Polyester/35 Cotton Twill fabric provides a perfect marriage of comfort and durability.

Starting at: \$25.00

Wrangler WP80

The Wrangler WP80 is a top notch pant, and is an awesome fit in the Facilities Management industry. The deep cargo pockets have snap down flaps to keep all your tools in one place.

Because of the importance of durability, this pant incorporates double needle stitching and reinforced front pockets. There are wider and longer belt loops designed to accommodate work belts, as well as a full inseam gusset to allow for greater mobility when bending, squatting, lifting or climbing. With a 7.5 oz Canvas 60 Cotton/40 Polyester blend fabric, this pant was made for the work environment.

Starting at: \$33.00

Utility Pants for Facilities Management

Wrangler WP82

A sister style to the Wrangler WP80, this utility pant has some of the same awesome features that are sought out within the Facilities Management industry. In addition to the WP80 details featured above, this pant has a wide and deep cell phone pocket and a utility loop on the waistband. When compared to other work pants, the lower rise provides a more modern fit. It weighs 7.5 oz, of 60 Cotton/40 Polyester canvas material.

Starting at: \$33.00

Riggs 3W020

The Riggs 3W020 is the premium utility work pant option for your uniform program. With a high rise and relaxed fit, it's flexible enough to work in any space. The carpenter style means a utility pocket on the left side and a utility loop on the right, and makes this pant an ideal option in any Facilities Management role. The 10 oz. 100% Cotton Ripstop fabric is the most comfortable in the market and is one your employees will adore.

Starting at: \$39.00

Cargo Shorts for Facilities Management

Red Kap PT66

One of the most durable shorts in the industry, The Red Kap PT66 almost does the work for you. With a heavy-duty brass ratcheting zipper and snap closures on cargo and back pockets, the reliability of this short is unmatched. The 7.25 oz. 65 Polyester/35 Cotton Twill makes working a long day a bit more comfortable.

Starting at: \$23.00

Wrangler WP90

Once again, the Wrangler name finds itself leading the pack. The super-reinforced cargo pockets in this short make it easier to access important items that need to stay on your employees. Gusseted inseams make the leg opening wider for superior comfort. With a lower rise than in traditional work shorts, this short is more than ideal in a Facilities Management setting. With a 7.5 oz. 60 Cotton/40 Polyester canvas material, it's significantly more comfortable than the traditional work short.

Starting at: \$29.00

Sweatshirts for Facilities Management

Port Authority PC90

One of the easiest crewnecks to begin a uniform program with, this 9 oz. 50 Cotton /50 Polyester fleece provides everything your employees need to get the job done. This fabric finish not only retains its color extremely well, but it also provides a great stabilizer for embroidering your company logo. If you're looking for a sweatshirt to start your Facilities Management uniform program with, this is the one.

Starting at: \$14.00

Sport Tek F280

A step above the PC90, the F280 will keep your employees comfortable while at work. Weighing in at 12 ounces, this sweatshirt will provide warmth for any environment. The fabric is a cross-grain 80 Cotton/20 Polyester fleece that is durable in the most general settings. The sleeve cuffs and crewneck are rib knit, providing a seal that will keep out the wind.

Starting at: \$30.00

Hoodies for Facilities Management

Port Authority PC90H

The hooded version of the PC90, this sweatshirt is extremely popular. An incredibly durable solution, this 9 oz. 50 Cotton/50 Polyester fleece holds up no matter the setting. Heavy enough to wear as an outer layer, but light enough to wear under a jacket or coat, this sweatshirt is versatile in 3 seasons. The drawstring allows for easy hood tightening on very cold days so your employees stay comfortable.

Starting at: \$22.00

Sport Tek F281

This hooded sweatshirt is one of the most popular in its weight class. The front pouch pocket and hood are both lined with an additional layer of the sweatshirt fabric, making this fleece warm without being heavier than it should. Dyed to match draw strings will help your brand promote a professional image on site. Weighing in at 12 ounces, you cannot go wrong with this sweatshirt in a Facilities Management setting.

Starting at: \$35.00

Full-Zip Hoodies for Facilities Management

Port Authority PC90ZH

This full zip hoodie completes the PC90 lineup of awesome sweatshirts to start a uniform program with. Like its crewneck and pullover hoodie companions, this sweatshirt weighs 9 ounces and contains 50 Cotton /50 Polyester. This sweatshirt also comes in tall sizes in the same color offerings as the regular length.

Starting at: \$27.00

Sport Tek F282

Rounding out the F280 series, the F282 can be a top notch addition to a Facilities Management uniform program.

Weighing exactly the same as the F280 and F281 above, this full zip hoodie has an antique nickel-finished zipper for a smooth removal in warmer conditions. The front pouch pockets are lined for warmth and big enough for any necessary on-the-job utensils.

Starting at: \$35.00

Berne SZ101

The "best in class" option for full-zip sweatshirts is this thermal lined zip front hooded sweatshirt. With a 60 Cotton/ 40 Polyester material, this sweatshirt weighs 9 ounces in the fleece shell PLUS 5 ounces in the thermal lining. Reinforced bar tacks can be found at stress points, making the durability of this garment unmatched. Oversized front pockets and a third media pocket make this style popular on or off the work site.

Starting at: \$39.00

Mid-weight Jackets for Facilities Management

Red Kap JT50

The 65 Polyester/ 35 Cotton shell is one of the most durable around. With the shell weighing 7.5 ounces and the lining weighing 3.3 ounces, this jacket provides comfort through three seasons. At 29' in length, it also provides adequate protection from windy outdoor environments. Two lower inset pockets are durable enough for carrying just about anything.

Starting at: \$35.00

Red Kap JP66

This jacket is the cream of the crop when considering a midweight layer for your Facilities Management uniform program. The fabric weighs 10.5 ounces and is comprised of a 92 Polyester/ 8 Spandex blend that allows for unparalleled ease of movement. The adjustable drawstring bottom and stand up collar help to keep the wind out on cold days. The media chest pocket can hold a wallet, the largest smartphone on the market, and more!

Starting at: \$63.00

Heavy-weight Jackets for Facilities Management

Tri Mountain 8800

This 3 season jackets features a shell constructed of windproof/water resistant heavyweight Toughlan® nylon, and is lined with 11.5 oz. Anti-Pilling PANDA FLEECE. A plethora of pockets keep important items concealed and safe. Seams are double-stitched seams for added strength.

Starting at: \$46.00

Red Kap JP70

One of the most durable parkas in the market, this garment will help your employees enjoy working in the cold. The shell is made of 65 Polyester/ 35 Cotton to promote durability and the 100% Polyester insulation make this parka extremely warm in the coldest winter months. Numerous pockets all over this parka make carrying everything you need a cinch.

Starting at: \$102.00

Summary

Once you've determined what items you need in your uniform program, the rest is pretty straightforward. However, this step isn't something that you want to take lightly.

That's why we've taken years of research and poured it into this guide. These uniform styles have stood the test of time and should continue to do so. We've found that the items in this guide:

- Have the durability to withstand the Facilities Management work environment for most of the year, sometimes longer.
- Are cost effective so your team can be properly outfitted without having to cut from another department's budget.
- Will aid in enhancing your company's professional brand image within the communities you serve

Now that you have decided on a uniform for your team, are you ready to take the next step? Evaluating the way you order your uniforms could save you more time throughout the course of the year and should be next on your to-do list.

When you're ready, let us know and we would be happy to walk with you through your next steps.
